Education

Chinmaya Vishwavidyapeeth — Ernakulam, Kerala
Bachelor of Technology in Computer Science; CGPA: 9.6/10.0 — *July 2024 – May 2028*

Experience

Cyber Cell — Kerala
Cybersecurity Intern — *May 2026*
- Gained foundational exposure to security protocols, cyber defense mechanisms, and digital safety
- Assisted in understanding real-world cybersecurity challenges and network vulnerabilities

Custom Bakery Catalog — Freelance
Web Developer — *Ongoing*
- Building a responsive catalog website for a local bakery to support online product showcasing and customer orders
- Implementing WhatsApp-based order redirection to convert browsing interest into direct customer inquiries

Mobile App Quality Assurance
Manual QA Tester — *May 2026*
- Performed functional and regression testing to identify UI/UX inconsistencies and logic-related bugs in mobile applications

Projects

KiroLabs (Startup Project) | *Frontend Developer* | *React, TypeScript, Vite* — *May 2026*
- Developed the frontend web interface for a startup founded by a university senior, prioritizing cross-browser performance and utilizing AI workflows
- Implemented strict web accessibility standards, including prefers-reduced-motion CSS overrides

Loopit (Campus App) | *Frontend Developer* | *Flutter, Dart* — *July 2026*
- Engineered frontend logic and interactive user flows for a campus-wide mobile application spearheaded by a senior
- Utilized rapid software prototyping workflows to accelerate UI testing and feature development across Android and iOS

AccentPal | *Frontend Architecture, Rapid Prototyping* — *Ongoing*
- Designed and prototyped modular component structures and state handling for seamless user experiences
- Leveraged AI-assisted development (vibe coding) to rapidly iterate on application flow and user interface design

HydroNet – Smart Farming Prototype | Live Demo — *September 2025*
- Co-developed a small-scale hardware and software prototype for an automated, water-independent farming system
- Demonstrated the monitoring of key environmental metrics including pH, temperature, and water levels

Achievements

- **Hackathon Winner:** Secured 2nd Place at the Smart India Hackathon (SIH) Internal Campus Edition (2025).
- **Idea Pitching Winner:** Won the 1st prize and a 10,000 cash prize for developing and pitching a highly viable technical business concept in a campus-wide competition.

Leadership & Activities

Entrepreneurship Cell (E-Cell CVV) — Kerala, India
Innovation and Ideation Head — *Aug 2026 – Present*
- Guiding student ideation, coordinating technical events, and fostering a product-driven mindset on campus

Innovation and Entrepreneurship Development Centre (IEDC) — Kerala, India
Community Lead — *Feb 2026 – Present*
- Supporting community engagement initiatives and technical event planning

Innovation and Entrepreneurship Development Centre (IEDC) — Kerala, India
Quality & Operations Sub-Lead — *Feb 2025 – Feb 2026*
- Coordinated hackathons, idea pitching sessions, and workshops across multiple colleges to improve outreach

Technical Skills

Languages: Python, Java, C, SQL, Dart, TypeScript, JavaScript
Libraries/Frameworks: React, Vite, Flutter, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Core Concepts: Intermediate knowledge of Computer Networks, Data Structures & Algorithms, OOP, Operating Systems
Tools & Workflows: Git, GitHub, AI-Assisted Prototyping (Vibe Coding), API Integrations, Manual QA

Certifications

Google Crash Course on Python | **Core Java Training** (Techmasters) | **Python Course** (Analytics Vidhya)
